

Association of Condominium Owners

## **DIRECTIONS FOR ELECTRONIC BALLOTS**

1. You will receive an e-mail from [Tamarron Association of Condominium Owners noreply@electionrunner.com](#) (so that you know it isn't spam), and this will be sent only to the primary e-mail address we have on file. *You will receive one e-mail for each unit owned.*
2. You will be directed to click on a link in the body of the e-mail which will take you to the electronic ballot.
3. Simply follow the directions on the ballot. You may vote for up to three (3) candidates on each ballot. In all it should take less than 2 minutes.
4. The candidates' resumes are posted on this page of the TACO website.

## **IMPORTANT NOTES**

1. The ballot invitation will be sent *only* to the primary e-mail address we have on file. This makes it important that you update your e-mail address whenever necessary.
2. You can access this e-mail and vote from any device you choose. However, the ballot contains a unique "key", and once it is submitted, any other submissions containing this key will be rejected. This ensures that each unit can only vote once.
3. As stated above, if you own more than one unit, you will receive one e-mail for each unit. Follow the directions for each ballot.
4. While the system allows the administrator to see *who* has voted, it does not allow him/her to see *how* they have voted.
5. ***Electronic ballots are final. They will supersede any paper ballot and, once submitted, cannot be changed.***
